

Vocational Education & Training

Swiss Hospitality training infused with the perfect combination of soft and hard skills.

The VET licensing programs

The Vocational Education and Training (VET) Licence model, developed by EHL, offers organizations and training centers the opportunity to deliver best-in class programs made in Switzerland. Our difference comes from our belief in Affective Hospitality, a perfect combination of soft and hard skills. Our programs use innovative methods to ensure a high quality of training and employability for graduates.

The VET benefits:

- Access to world-class course content
- Management support & faculty training
- Ability to deliver VET professional certificates

ABOUT US

EHL Advisory Services is the largest Swiss hospitality advisory services firm and the most advanced house of knowledge for hospitality education and business development.

We bring the expertise of the world's leading hospitality management schools to prepare learning centers and businesses for future success, and we benefit from the vast resources of the group to create business opportunities and develop talent where the industry needs us most.

TRAINING PROGRAMS FOR DYNAMIC PROFESSIONS

To train service-minded, effective hospitality professionals, the VET programs use a hybrid (hands-on and academic) learning approach with a focus on practical learning. The curriculum incorporates modern learning methodologies and uses content developed in Switzerland by EHL.

THE VET LICENSING PROCESS

Once the licensing agreement is signed, EHL Advisory Services team will help with the set up of the training center all the way through the opening and provides ongoing support. VET by EHL is a plug and play program and can be implemented in 180 days. The current portfolio includes hotel companies, hotel schools and governments.
